**Slide Show shuffle**

**Power saving (Turn off after: 2h, 4h, 8h)**

**Reset (factory default settings)**

**IV. Safety instructions**

Handle the digital photo frame with care, and avoid touching the screen. Fingertips are difficult to remove from the screen.

Always set the digital photo frame on a flat, stable surface to prevent it from falling and being damaged.

Avoid exposing the digital photo frame to the sun or high temperatures, as these may damage the screen.

Do not expose the digital photo frame to water or liquids, as this may damage the screen.

Do not expose the digital photo frame to extreme cold, as this may damage the screen.

When it comes into contact with water or liquids, turn off the digital photo frame and unplug it from the power source.

Never place heavy or sharp objects on the frame screen or the frame's power supply.

Never place the digital photo frame in an outlet or with a power supply that is too high.

This may overheat a frame, or even electrical shock.

Do not expose the digital photo frame to direct sunlight or bright light.

If the digital photo frame is left on a rug, regularly check the condition of the cord to prevent damage. If the cord is damaged, unplug it and replace it.

**Ventilation**

The ventilation and access for mounting cardio after the frame to wall.  
To never cover hole of the frame and to prevent overheating, these openings must not be covered or blocked.

Keep the digital frame at a sufficient distance from the wall to ensure it vents.

Do not place the digital photo frame on a bed or sofa so that it does not overheat. **Caution!**

Never expose the digital photo frame to the sun or the heat of the home. The digital photo frame has electric circuits and you could be hurt if you touch them.

Do not try to repair the digital photo frame by yourself.

**To exit, press **Exit******V. Warranty**
