SAFETY &
COMFORT

STRIKINGLY DIFFERENT. IF YOU'RE LIKELY TO APPRECIATE A REFRESHINGLY INNOVATIVE APPROACH THAT DELIVERS DISTINCTIVE AND INDIVIDUAL STYLE WITHOUT COMPROMISING ON SAFETY OR COMFORT, THEN TAKE YOUR SEAT IN THE CITROËN C6.

SAFETY

Citroën's commitment to safety is evident by the plethora of standard safety features on all models designed to keep you and your passengers secure. A high-performance braking system features four ventilated discs and includes ABS with Emergency Brakeforce Distribution (EBD) and Emergency Braking Assistance (EBA) together with Electronic Stability Programme (ESP) with traction control. An automatic tyre pressure monitor that alerts the driver if the tyre pressure requires attention.

The Lane Departure Warning System (LDWS) on Exclusive models helps combat driver fatigue at the wheel on motorways or major routes. When the C6 is travelling at over 50mph, sensors detect any crossing of solid or dotted white lines and the driver is immediately given warning via seat vibrations so that corrective action can be taken.

As well as no fewer than eight airbags standard on all models, a knee level airbag provides valuable extra protection for the driver in the event of impact while the steering column collapses by 80mm to minimise injury. Active head restraints help to prevent whiplash injuries while the C6 structure has been specifically designed to be robust in the most severe of accidents.

ENGINES

The Citroën C6 comes with a choice of 2 powerful diesel engines to deliver a fulfilling driving experience.

The 2.2HDI diesel engine provides 173hp at 4000rpm and 273lb.ft of torque at 1500rpm. The outstanding responsive 2.7HDI V6 diesel engine delivers 208hp and 4000rpm and 325lb.ft of torque at 1900rpm. Both diesel engines come equipped with a new-generation Diesel Particulate Filter System.

The V6 engine is linked to a new advanced 6-speed auto-adaptive gearbox with 4 different modes for optimum control in varying conditions. The 2.2HDI 173hp also comes with a 6-speed automatic gearbox.

Driver and passenger can both enjoy ergonomic seating with excellent posture support that makes a longer journey more of a pleasure. Rear passengers will experience a level of comfort that up to now has remained the privilege of the limousine passenger. Two rear armchairs deliver first-class travel with the ability to slide and adjust to provide passengers with maximum comfort, rest and relaxation.

C6

UNIQUELY
FUNCTIONAL

UNIQUELY FUNCTIONAL.

THE REAR WINDOW OF THE C6 EXTENDS DOWN TO THE REAR LIGHTS. NOT ONLY AN INNOVATIVE TREND-SETTING DESIGN FEATURE, BUT ALSO FUNCTIONAL AS THE UNIQUE CONCAVE SHAPE PROVIDES EXCELLENT REAR VIEW VISIBILITY AND IS SELF-CLEANING.

LIGHT WHERE IT'S MOST NEEDED

The Xenon headlamps are activated when conditions dictate and also provide 'guide-me-home' lighting which can be a great help in illuminating the way to your door. Undeniably supremely functional, the distinctive headlamp unit also makes a strong design statement that is eye-catching and an integral part of the C6 kerb appeal.

SPEED SENSITIVE REAR SPOILER

The coupé-styled speed sensitive spoiler on the V6 engine delivers optimum aerodynamics and more effective braking and stability at higher speeds. The spoiler starts from a fully retracted state and automatically adjusts to an intermediary position as soon as the speed exceeds 40mph. The spoiler then becomes completely extended at motorway speeds until they fall below 65mph when it reverts to the intermediary position. As soon as 15mph is reached, the spoiler closes completely.

SUSPENSION OF DISBELIEF

The Hydractive 3+ suspension system of the Citroën C6 incorporates advanced technology to electrically control springing and damping. This means more comfort and superior driving dynamics can be enjoyed than a more conventional coil spring system would allow. By using data from height clearance sensors on each wheel, the Hydractive 3+ suspension system automatically adjusts ground clearance according to speed, road surface and number of passengers aboard. This ensures that superb road-holding, minimal vibration and road-noise together with optimum fuel consumption are delivered regardless of the conditions.

HEAD-UP DISPLAY

By means of a virtual image directly in the driver's line of vision, the sophisticated Head-Up display on the V6 engine can project key information such as speed, fuel and navigation data onto the windscreen. The resulting ease in data gathering can save the driver valuable seconds and also means that eyes can stay safely on the road ahead.

SOUND SYSTEM

Leading audio specialist JBL has created a Hi-Fi sound system especially for the Citroën C6. The sound system incorporates eight loudspeakers and two woofers, together with a special amplifier. With the system acoustics specially tailored to encompass the cabin, an outstanding sound quality appropriate to a top-class executive is the gratifying result.

ACTIVE BONNET

The active bonnet system on the V6 engine represents a significant advancement in pedestrian safety. In the event of impact, the system instantly raises the C6 bonnet creating a space between it and the engine below. The bonnet is then able to absorb more energy from an impact and minimise any injury to the pedestrian. Thanks to the active bonnet system, the C6 is the first car to earn the maximum Euro NCAP four star rating for pedestrian protection.

Euro NCAP for Adult Occupant Protection and Pedestrian Protection date assessed: C6 November 2005.

A close-up photograph of a silver engine cover. The cover features a central black rectangular plate with the text 'V6 HDi' in silver, raised letters. To the left of the text is a silver Peugeot lion logo. The engine cover is surrounded by six silver, pointed, fin-like structures. A large, oval-shaped silver handle is visible on the right side of the cover. The background is dark, and there is a bright light source on the right side, creating a strong highlight and shadow.

ENVIRONMENTAL
COMMITMENT

GREEN EFFICIENCY. CITROËN HAS BEEN PIONEERING CLEANER, MORE FUEL-EFFICIENT MOTORING, SUCH AS THE COMMON RAIL HDi ENGINES NOW FITTED IN ALL NEW CITROËN DIESELS, LONG BEFORE ALL THE HYPE...

CITROËN HAS ALWAYS BEEN AT THE FOREFRONT OF GREENER TECHNOLOGY AND THE C6 IS NO EXCEPTION. TODAY, WE HAVE ONE OF THE UK'S WIDEST RANGES OF LOW EMISSION VEHICLES – THREE OF WHICH ARE IN THE TOP FOUR FOR LOW CO₂ AND FUEL-EFFICIENCY. WE ALSO PRODUCE THE UK'S MOST ECONOMICAL LIGHT COMMERCIAL VEHICLE, THE NEMO VAN.

AIRDREAM – A BENCHMARK

When it comes to the environment we wanted to show our genuine commitment as well as our profound expertise, so we have devised a benchmarking scheme with the signature 'Airdream' reserved exclusively for the cleanest vehicles in our range. To qualify for the Airdream signature, vehicles must meet three standards: 1. a) Stop & Start b) CO₂ emissions of 120g/km or less c) Fitted with DFPS with CO₂ below 158g/km. 2. Manufacturing quality of ISO14001. 3. 95% of recoverable materials.

All Citroën vehicles are designed to be 85% recyclable.

WHATCAR?
GREEN AWARDS 2008

Citroën was a double winner at the 2008 WhatCar? Green Awards. The new C5 1.6HDi VTR+ saloon won Best Family Car and Grand C4 Picasso 1.6HDi SX won Best MPV.

INTRODUCING THE ECOLOGICAL CAR

The Citroën C-Cactus concept (above), a car designed on ecological principles. It includes a significant proportion of recycled or recyclable materials and, like the plant it is named after, it is low on liquid consumption. At the same time, C-Cactus is designed to be no more expensive than a mid-range family car. This can be attributed to the use of new materials and to a rational design process using a smaller number of parts. C-Cactus is an essential vehicle reflecting a new vision of the car, many of its thoughts and themes will appear in modern Citroën vehicles to come.
