Safety precautions ⚠

Only use the power supply unit supplied as indicated on the underside of the device.

Only insert **approved rechargeable batteries of the same type**. Never use ordinary (non-rechargeable) batteries as they may pose a health hazard or cause injury.

Make sure the rechargeable batteries are inserted the right way round (as indicated in the battery compartment),

Use the batteries specified in these operating instructions (as indicated in the battery compartment)

The phone may affect medical equipment so always switch your phone off before entering hospitals or doctors' practices.

The handset may cause an unpleasant humming noise in hearing aids.

Do not operate the phone in places where there is a risk of explosion (such as paint workshops).

The handset is not splash-proof.

Drivers must not use the phone while driving (including the walkie-talkie function).

The phone must be switched off at all times in an aircraft (including the walkie-talkie function). Make sure it cannot be switched on accidentally.

If you give your Gigaset to someone else you should also give them the operating instructions.

Dispose of batteries and the phone carefully. Do not pollute the environment.

Not all the functions described in these operating instructions are available in all countries.

Preparing the handset

Delivery package

Gigaset 4000 Comfort handset, two batteries, charging unit, belt clip, operating instructions.

Inserting the batteries (automatic registration)

- Make sure you insert the batteries **the right way round** – see diagram on the left.
- **Replace** the cover and push gently **upwards** until it clicks into place.
- **To open** press the grooved area on the cover and slide back.
 Before activating your handset, place it in the **Gigaset 4010/4015 Comfort** base station **with the display facing upwards**. The handset is automatically registered; this is shown on the display (e.g. INT1)

If registration is successful you will hear a confirmation tone (rising sequence).

Charging the batteries

 Leave the handset for approx. five hours in the base station/charging unit to charge the batteries, as they are not charged when they leave the factory. The charging status icon flashes on the handset to indicate that the batteries are being charged:

▭▭▭ Batt. flat
(battery symbol flashes)

▭▭▬ Batteries $^1/_3$ charged

▭▬▬ Batteries $^2/_3$ charged

▬▬▬ Batteries full

See the appendix for a list of recommended batteries.

● Once the initial charging process is completed you can replace your handset in the base station/ charging unit after each call. Charging is controlled electronically. This ensures optimum charging and prolongs battery life.

● The batteries heat up during charging. This is normal and not dangerous.

● Opening the battery compartment unnecessarily may cause the wrong charging status to be displayed.

Attaching the belt clip
Push the belt clip onto the back of the handset until the lugs at the side click into place.

Switching the handset on and off

✆   To switch the handset on and off, **hold down** the end call key until you hear a confirmation beep (rising tone sequence).

The handset is switched on as soon as you insert the batteries and place the handset in the base station/ charging unit.

Setting the date and time

You need to set the date and time so that the time that messages and calls are received is shown correctly.

≥≡	Open the menu.
⟨⌃⟩ Calendar/Clock OK	Select and confirm.
⟨⌃⟩ Date/Time OK	Select and confirm. The current setting is shown.

Enter the date

Enter the day/month/year.
In this case 20.05.2001.
e. g. 2^{ABC} $0+$ $0+$ 5^{JKL} $0+$ $1^{∞}$

⟨⌃⟩ Go down one line.

Enter the time

Enter hours and minutes.
In this case 19:05
e. g. $1^{∞}$ 9^{WXYZ} $0+$ 5^{JKL}

⟨⌃⟩ Go down one line.

Select the display mode

use the left side of the control key to select the 12-hour mode (**am** or **pm**) or the 24-hour mode (default).

Save Save the settings.

Activating/deactivating the keypad lock

You can disable the handset keypad. If there is an incoming call, the key lock is automatically deactivated and re-activated after the call has ended.

To activate/deactivate, hold **down** key

Accepting a call: Press the talk key ☍ .

Changing the display language

≥≡   Open the menu.

H/Set Settings   OK   Confirm the function.

Language   OK   The current language is marked with a ✓.

OK   Select the language you want and confirm.

You will find a table on the last page of this booklet.

Dialling an emergency number

You can dial the emergency numbers saved in the base station even if the telephone lock is activated. Please refer to the operating instructions for your base station.

Registering the handset

To make calls with your handset, you must "introduce" it to its base station (registering)

- if your handset has already been registered at a **different base station** (**steps 1**, **2** and **3**) or
- if you want to register the handset as a new handset at a **Gigaset base station of an older Gigaset range** (**steps 1** and **3**).

Step 1: On the **base station** or on the **base station telephone**:

Gigaset	On the base station or base telephone
4010/4015	**Hold down** the key on the underside of the base station.
3010/3015	Hold down the paging-key ● on the base station until you hear **signal tones**.
3020/25 3030/35 4030/35	Select settings, system settings and register handset in the menu at the base station telephone and confirm with OK.
3070/75 4070/75	Press the LED – it will flash during registration.
Non-Siemens base stations	To register at "GAP base stations," follow the relevant operating instructions (steps 2 and 3).

Step 2: On the handset:

≡   Press the display key.

(↕) H/Set Settings OK Select and confirm.

(↕) Register H/Set OK Select and confirm.

(↕) OK   Select the base station.

Step 3: On the handset:

📱 OK   Enter the **system PIN** and confirm (factory setting 0000) – e.g. Regstr.Procedure Base 1 is displayed.

Your handset is now ready for operation!

Your handset can be registered at up to four base stations.

Deactivate with 9ʷˣʸᶻ #↩.
The room monitor is now deactivated. The room monitor will **no longer** call.

Walk and Talk mode

This function enables handsets (Gigaset 4000 Comfort only) to communicate free of charge outside the range of the base station. In Walk and Talk mode, handsets are not available for incoming calls.

Requirements:
The handsets must have the same base settings (e.g. best base station) or they must not be registered at any base station. (Walk and Talk mode reduces the handset's talk time considerably).

Activating Walk and Talk mode on the handset

$\boxed{\geq}$ Open the menu.

$\bigcirc$ Add. Features   OK   Select the function.

$\bigcirc$ Walk and Talk   OK   Activate Walk and Talk mode.

Walk and Talk mode can be deactivated with the display key ⌷Off⌷.

Using Walk and Talk mode

Two handsets are in Walk and Talk mode:

Calling handset:

Call   Press.

Called handset:

The call is indicated by a message on the display.

Silent   Press.

$\bigtriangledown$ Press.
The two handsets are connected to one another.

$\bigcirc$ Press. The call is ended.

Appendix

Operating on base stations in the Gigaset family

Gigaset 1000/2000/3000

The following functions on your 4000 Comfort handset are **not** supported by base stations in this Gigaset family:

- Setting the time (the time is not transferred after the handset has been switched off)
- Changing the display language
- Room monitoring (cannot be switched off **externally**)
- SMS transfer (SMS-compatible base stations only)*

Gigaset 4010/4015 Classic

The following functions on your 4000 Comfort handset are **not** supported by the above-mentioned base stations:

- Changing the display language
- SMS transfer*
- Setting authorisation stages

* Not available in all countries

Looking after your phone

Wipe the base station and handset with a **damp cloth** or an antistatic wipe. **Never** use a dry cloth as this can cause static discharge.

Recommended batteries:

Nickel cadmium (NiCd)	Nickel metal hydride (NiMH)
Sanyo N-3U (700 mAh)	Saft RH 6 NiMH 1300 (1300 mAh)
Mobile Power 700 (700 mAh)	Panasonic HHR-110 AA (1100 mAh)
Panasonic 600 DT (600 mAh)	Panasonic Pro+ 1500 (1500 mAh)
Emmerich 700 (700mAh)	Sanyo HR-3U (1600 mAh)
	GP GP 130 AAHC (1300 mAh)
	Varta Phone Power (1300 mAh)
	Emmerich 1300 (1300 mAh)

Always replace both batteries at the same time and only use batteries of the same type/manufacturer.

Operating times/charging time of the handset:

Capacity (mAh)	Standby time (hours)	Talk time (hours)	Charging time (hours)
700	up to 180	more than 10	about 5.5
1200	up to 300	more than 17	about 11
1600	up to 400	more than 23	about 14

The charge capacity of the battery reduces after a number of years. This is quite normal.

Range

The handset will operate away from the base station up to about 300 m outdoors and up to 50 m indoors.

Guarantee

Scope

- This equipment guarantee applies to end users ("customers"). This guarantee does not in any way affect the customer's statutory rights.
- The guarantee applies to the supplied devices and all their components but not to their installation or configuration or to the services provided by the dealer. Manuals and any software supplied on a separate data medium are excluded from the guarantee. This guarantee does not apply to decorative covers or any other personalised parts or software not included in the scope of supply. The guarantee also does not apply to decorative top or bottom shells for special editions.
- The guarantee provides for devices or components that, despite proper care and use, have demonstrably developed defects due to faulty workmanship and/or faulty materials to be replaced or repaired at our discretion free of charge. The guarantee does not cover normal wear and tear. Alternatively, we reserve the right to replace the defective device with a successor model or reimburse the original purchase price on return of the defective device. Our decision is final. Any legal claims are excluded.
- Claims under the guarantee cannot be made if
    – the defect or damage was caused by improper care or use. Improper care or use includes the following:
    – Opening the device (this is classed as third-party intervention)
    – Manipulating components on the printed circuit board
    – Manipulating the software
    – Defects or damage caused by dropping, breaking, lightning or ingress of moisture. This also applies if defects or damage was caused by mechanical, chemical, radio interference or thermal factors (e.g. microwave, sauna, etc.).
    – Repairs or other work done by persons not authorised by us.
    – Devices fitted with accessories not authorised by Siemens.
- Any further claims due to damage are excluded, such as damage arising outside the device, provided this was not due to gross negligence and/or intent on our part.
- Claims under the guarantee must be made as soon as the defect is noticed.
- A till receipt showing the date of purchase must be presented as proof. Each claim under the guarantee is accepted with the express reservation that subsequent investigations confirm the validity of the claim.
- Any devices or components that are replaced become our property.
- The costs of materials and labour will be borne by us, but not the costs of transport, postage or freight.
- We are entitled, at our discretion, to make technical changes (such as firmware updates) beyond repair or replacement in order to upgrade the device to the latest state of the art. There is no additional charge to the customer for this work. Our decision is final. Any legal claims are excluded.
- The guarantee is valid in the country of purchase. It applies only if the device is operated in the relevant geographical area in accordance with the information on the packaging and in the operating instructions.
- Any further claims are excluded. Siemens is not liable in any circumstances for downtime, loss of profits, loss of data or loss of any other information. The customer alone is responsible for safeguarding such data and information.
- Changes to this guarantee require prior approval by Siemens in writing.

Guarantee period

- The guarantee applies in countries in the EU from 1 January 2002 for a period of 24 months.
- In all other countries the guarantee period shall be the relevant minimum statutory guarantee period, but no longer than 24 months.
- The guarantee period starts on the day of purchase by the customer.
- A successful claim under the guarantee does not extend the guarantee period.
- Work under the guarantee is handled by our Customer Care Centers.
- The guarantor is Siemens Aktiengesellschaft Deutschland, Schlavenhorst 88, D-46395 Bocholt.

> To redeem the guarantee please contact your local Customer Care Center (see back cover)
