## - ATTENTION ·

THE SCART CONNECTOR OUTPUTS ONLY THE TV SIGNAL

## ATTENTION

The exclamation point within the triangle is a warning sign alerting the user of important instructions accompanying the product.

The lightening flash with arrowhead symbol within the triangle is a warning sign alerting the user of "dangerous voltage" inside the unit.

To reduce the risk of electric shock, do not remove the cover. No user serviceable parts inside the unit. Refer all servicing to qualified personnel.

Invisible laser radiation when the unit is opened or interlocks defeated. Avoid exposure to laser beam. Use of controls, adjustments or procedures other than those specified herein may result in hazardous radiation exposure.

This unit must not be exposed to moisture or rain.

This unit should be positioned so that it is properly ventilated. Avoid placing it, for example, close to curtains, on the carpet or in a built-in installation such as a bookcase.

Do not expose this unit to direct sunlight or heat radiating sources.

## PRECAUTIONS

Please read these precautions before operating this unit.

#### • Power cord protection

To avoid a malfunction of this product and to protect against electric shock, fire or personal injury, please observe the following.

- O Hold the plug firmly when connecting or disconnecting the AC power supply to this unit.
- O Do not connect or disconnect the AC power supply when your hands are wet.
- O Keep the AC power cord away from heating appliances.
- O Never put heavy objects on the power cord.
- O Do not attempt to repair or reconstruct the power cord in any way.

#### • Placement

Avoid placing the unit in areas of:

- O Direct sunlight.
- O High temperature (over 35°C)or high humidity (over 90%)
- O High levels of dust

The internal parts may be damaged as a result.

#### • Non-use Periods

- O When not in use, switch off the unit.
- O When left unused for a long period of time, the unit should be unplugged from the household AC supply.

#### • Foreign Objects

- O Touching internal parts of this unit is dangerous and may damage the player. Never attempt to disassemble the unit.
- O Do not put any foreign objects on the disc tray.

#### • Keep away from water / magnetic fields

- O Keep the unit away from flower vases, tubs, sinks, etc. If liquids are spilled into the unit, serious damage will occur.
- O Do not place magnetic objects (such as speakers) close to this unit.

#### • Stacking

- O Place the unit in a horizontal position. Do not place anything heavy on top of it.
- O Do not place the unit on amplifiers or other appliances which may generate heat.

#### • Condensation

- Moisture may form on the lens in the following conditions: -
- O Immediately after a heater has been turned on.
- O In a steamy or very humid room.
- When the unit is moved from a cold environment to a warm one.
   If moisture forms inside this unit, it may not operate properly. In this case, turn on the power and wait about one hour for the moisture to evaporate.

#### • If there is noise interference on your TV channels

Depending on the reception conditions of the broadcast, interference may appear on the TV while you are watching a channel with the DVD player on. This is not a malfunction of the unit or the TV. Should this occur, simply switch off the DVD player.

#### • To protect the unit during a thunder storm

Unplug the AC power cord from the wall outlet and disconnect the antenna.

#### **BATTERY INSTALLATION**

1. Open the battery compartment cover.

#### **BATTERY CAUTIONS**

- Use two "AA/UM-3" size penlight batteries for the remote control handset.
- The batteries may last approximately one year depending on how much the remote control is used. For best performance it is recommended batteries be replaced on a yearly basis, or when remote operation becomes erratic.
- Do not mix old and new batteries.
- Weak batteries can leak and severely damage the remote control transmitter. Always remove batteries as soon as they become weak.

#### **REMOTE CONTROL OPERATION**

The following cases, the remote control may not operate:

- When there is an obstacle between your TV/DVD and the remote control.
- If you try to operate your TV/DVD from a distance greater than 7 metres.
- If you try to operate your TV/DVD away from the normal viewing angle (over 30° either side of the remote sensor).

**NOTE:** When direct sunlight, an incandescent lamp, fluorescent lamp or any other strong light shines on the remote sensor, the remote control operation may be unstable.

#### **ANTENNA CONNECTION**

Connect an indoor or outdoor antenna to the antenna socket (15) at the rear panel. For all antenna circuit problems, please consult your local dealer.

#### **EXTERNAL ANTENNA**

The type of antenna required depends on the position of your home, it's distance from the transmitter and local interference. If you do not have an antenna and you are uncertain of what to buy, you should seek the advice of a local antenna contractor.

E - 5

#### **POWER SOURCE**

Insert the AC Outlet cord plug into 230V/50Hz AC outlet.

After you have connected the Antenna and Power source, you must check that your TV/DVD is properly installed.

## **FUNCTION BUTTONS**

#### **Play Discs**

- 1. Press the OPEN/CLOSE Button ( 🛓 ) on the front panel and load the Disc on the tray.
  - The label side should be facing upwards. For a Double-sided DVD Disc, put the disc with label A/1 up.
- 2. Press the OPEN/CLOSE ( 🛓 ) button again to close the tray and the disc will be loaded.
- 3. The Disc will be played automatically.
  - If it is a DVD disc, it will show the Menu/Title Page on the screen.
  - If it is a CD, it will play the first track directly.
- 4. Press the STOP Button (■) if you want to stop the Disc playback You can resume playback by pressing the PLAY button and it will start at the location where you have pressed stopped (Resume Play).
- 5. Press the STOP Button twice to have the Disc really stopped.

#### PAUSE Mode

This function is applicable for DVD and CD audio.

- For DVD, the picture will become static.
- For CD audio, it will become silent.
- 1. Press the PAUSE Button ( II ) will cause the player to enter Pause mode.
- 2. Press the PLAY Button or PAUSE Button again will resume to Play State.

#### OSD

There are 4 OSD languages embedded in the DVD Player : English, Spanish, German and French.

- 1. Press the SETUP button on the remote controller to enter the setup menu main page.
- 2. Choose General Setup through the Navigation Arrows ( 4 + • )
- 3. Go to the OSD LANG option and use the Navigation Arrows to do the selection.
- 4. Press ENTER to confirm.
- 5. Press SETUP again to quit the Setup menu.

#### DVD Menu Play

The DVD Menu Play function is only applicable for DVD movie.User can access the Casting information, Production History, Movie Introduction etc. directly through this function.

- 1. Press the DVD MENU Button on the remote controller to enter the Root Menu.
- 2. Use the Navigation Arrows ( < > < > ) or input the item index through the Number keys (0-9) to do the selection.
- 3. Press ENTER to confirm the selection.

#### Select with Number Button (0 – 9)

When using the Number Buttons as input, user is always required to enter two digits. For example, to input the number '3', user has to press '0' and '3'.

- During a DVD movie playback, input through the Number Buttons will select the Chapter in the current title.
- When playing audio CD, Number Key press will command the player to access the track indicated

#### Audio Mode

This function is applicable only for DVD.

• For a DVD disc, pressing the AUDIO Button will change the language of playback.

#### Fast

This function is applicable for DVD and CD audio but with different effects. The FAST FORWARD (>>) key and FAST BACKWARD ((4) key are used to achieve fast play function.

• For DVD, there are 4 different levels of speed (2x, 4x, 8x, 16x). Every successive key press will increment the speed of quick play.

Note : Press PLAY Button at any stage will resume to normal speed.

For CD audio, the FAST FORWARD (→) key and FAST BACKWARD (↔) will perform quick rolling on the music output.
 Press PLAY and the playback will resume to normal speed.

#### SKIP

During playback, press one of the SKIP buttons ( I >>> )

- A number of chapters or tracks equal to the number of times the button is pressed is skipped
- When the k button is pressed once, the pickup returns to the beginning of the currently playing chapter or track.
- When the 🙀 button is pressed twice, the pickup jumps to the beginning of the previous chapter or track.
- When the >>> button is pressed once, the pickup goes to the beginning of the next chapter or track.
- · In some cases the menu screen may reappear when one of the SKIP buttons is pressed during menu playback on DVD/CD.

#### Slow Play

The Slow Forward is applicable for DVD. There are 4 steps of slow motion speed, 1/2, 1/4, 1/8, 1/16. Successive key presses will decrement the playback speed.

Note : Press Play Key to switch back to normal playback speed.

#### Repeat Mode

This function is applicable for DVD and CD audio but with different effects.

- For DVD disc playback, user can choose to repeat the current chapter or the current title. Subsequent key press of the REPEAT key can change between these two options.
- For CD, user can choose to repeat the current track or the whole disc (Repeat All). Subsequent key press of the REPEAT key
  can change between these two options.

#### Repeat AB

This function is applicable for DVD and CD audio. User can specify the repeating interval by marking the starting point and the end point.

- 1. Press the REPEAT AB Button to mark the starting point (Playback will continue).
- 2. Press the REPEAT AB Button to mark the end point. (The marked part will be repeated automatically)

Note : Press the REPEAT AB Button during repetition will disable the Repeat mode.

#### Subtitle

This function is only applicable for DVD disc. It can change the subtitle language shown on the screen. Note : Number of subtitle available depends on the DVD disc.

#### Angle

Some discs may have multiple viewing angles during production. The ANGLE button is to select the viewing angle shown on the screen. Note : The number of Angle of View depends on the Disc.

#### Search

This function is applicable for DVD and CD audio. Through this function, the user can access a specific location or a specific track by key in the target time or the track number.

- In the DVD playback mode, the player provides two search modes : Search Chapter Time and Search Title Time.
- 1. Press the SEARCH key to choose a search mode (Title time / Chapter time).
- 2. Input the target time through the Number keys (0-9) and the player will jump to the target location immediately.

- In CD audio, user can only access the location in the current track.
- 1. Press the SEARCH key to enter the Search Mode (there is only one mode in CD audio playback).
- 2. Input the target time through the Number keys (0-9) and the player will jump to the target location immediately.

#### Display (Remain Time)

This function is applicable for DVD only. It will display the timing information of the playback on the screen.

• For DVD playback, subsequent key press on the DISPLAY key will show the Title Elapsed Time, Title Remain Time, Chapter Elapse Time and Chapter Remain Time one by one.

![](_page_16_Figure_3.jpeg)

#### Resume Play

This function is applicable for DVD and CD audio. During the disc playback, when the STOP Button is pressed once, the player will enter the Resume Play mode. At this time, if the PLAY Button is pressed, the player will resume playback at the location where the STOP Button is pressed. If the STOP button is pressed (i.e. STOP Button is pressed twice), the player will be Stop.

#### Zoom

This function is applicable for DVD. User can enlarge a static picture or a moving picture by pressing the ZOOM key. There are 3 levels of zooming (2x, 3x and 4x) and they can be achieved one by one through subsequent key presses on the ZOOM key. NOTE: user can select the portion of the picture to be enlarged by using the Navigation keys ( $\checkmark$   $\checkmark$ ).

#### Program Mode

keys (0-9).

## **MP3 OPERATION**

This unit can support ISO9660 file system CD-ROM navigation. Multi-Media files such as MP3 thus can be played in the player.

#### Operation

 Insert the MP3 disc into the tray. Navigation Menu will be displayed. The menu will show up the files in the root directory, and the MP3 files then be play automatically.

![](_page_18_Figure_4.jpeg)

#### Play Mode

User can change the Play Mode by accessing the PLAY MODE field through the **LEFT/RIGHT** Navigation Arrows in the menu. There are five different play modes when playing MP3 disc.

- 1. FOLDER
  - All the files in the current folder will be played once in sequence.
- 2. SINGLE

The selected file will be played once in sequence.

3. REPEAT ONE

The selected file will be repeated.

4. REPEAT FOLDER

All the files in the current folder will be repeated.

5. SHUFFLE

The selected file will be played in shuffle.

### **PICTURE CD**

The unit can also be used to navigate picture CDs. Insert a picture CD into the tray and the disc will be loaded automatically. If the disc type can be identified, the player will start showing the pictures one by one (Slide Show Mode).

#### Operations

During Slide Show Mode: -

- · Press the STOP Button will shift to the Digest Mode in which 12 pictures will be shown on the screen each time.
- Press the PAUSE Button will freeze the screen so that the current picture can be held for a long time. To resume the slide show mode, press PLAY Button.
- · Press the NEXT Button on the remote controller will skip the next picture.
- Press the PREVIOUS Button on the remote controller will repeat the current picture.
- When all the pictures have displayed once, the player will enter the Digest Mode automatically.
