

OPERATION CONFIRMED CF CARD / EXTERNAL USB I/F DRIVE LIST FOR FOSTEX MODEL MR-8mkII (with V1.04 Software)

4th Issue (December 13, 2007)

Important Notice

The listed CF cards / USB I/F drives (for CD burning) were confirmed to operate properly with model MR-8mkII through our lab tests on the cards / drives Fostex optionally obtained from the market. However, this does not mean all the cards / drives of the same manufacturer and of the same model name / number / same capacity always work properly due to different internal configuration depending on manufacturing time and place. This should not be taken as an evaluation of general quality of each CF card.

C: Confirmed, -: Not checked, x: Does not work, **BOLD**: Newly added.

Depending on the difference of hardware configuration, the same manufacturer's and same model number of CF card with different capacity may not work properly.

Card Info can be confirmed on the MR-8 display by pressing "STOP" and "MENU/ENTER" keys simultaneously and then accessing Service Mode -> Card Info. Firm. Rev. cannot be confirmed on the MR-8mkII at the moment. Firm. Rev mentioned in the above column is checked by MR-8.

We only assure the operation of the above CF cards with the corresponding Card Info.
