Messages.....

We recommend that you read this chapter carefully before using your phone. The of improper use or use contrary to the instructions contained herein.

• TRAFFIC SAFETY:

Given studies, which show that using a mobile phone while driving a vehicle constitutes a real risk, even when the hands-free kit is used (car kit, headset...), drivers are requested to refrain from using their mobile when the vehicle is not

When switched on your phone emits electromagnetic waves that can interfere with the vehicle's electronic systems such as ABS anti-lock brakes or airbags. To ensure that there is no problem:

- do not place your phone on top of the dashboard or within an airbag deployment area.
- check with your car dealer or the car manufacturer to make sure that the dashboard is adequately shielded from mobile phone RF energy.

CONDITIONS OF USE:

Switch the phone off before boarding an aircraft

- using radio frequency
- devices such as a pacemaker, a hearing aid or insulin pump, etc. In particular when involuntary movements, or disorientation. To limit the likelihood of such which may result from the improper use of the mobile phone. using the phone, you should hold it against the ear on the opposite side to the symptoms, please take the following safety precautions:
- device, if any, To avoid hearing impairment, pick up the call before holding your phone to your - Take a minimum of a 15-minute break hourly.
- ear. Also move the handset away from your ear while using the "hands-free" mode Play in a room in which all lights are on. because the amplified volume might cause hearing damage
- Play at the farthest distance possible from the screen. Do not let children use the phone and/or play with the telephone and accessories - If your hands, wrists, or arms become tired or sore while playing, stop and rest without supervision.
- When replacing the cover please note that your phone may contain substances - If you continue to have sore hands wrists or arms during or after playing stop

that could create an allergic reaction.

Always handle your phone with care and keep it in a clean and dust-free place performance

Do not allow your phone to be exposed to adverse weather or environmental musculoskeletal disorders manufacturer disclaims any liability for damage, which may result as a consequence conditions (moisture, humidity, rain, infiltration of liquids, dust, sea air, etc). The manufacturer's recommended operating temperature range is -20°C to +55°C. Over 55°C the legibility of the phone's display may be impaired, though this is temporary and not serious

> Emergency call numbers may not be reachable on all cellular networks. You should never rely only on your phone for emergency calls.

Do not open, dismantle or attempt to repair your mobile phone yourself. Do not drop throw or bend your mobile phone

- Do not paint it. Use only Alcatel batteries, battery chargers, and accessories that are compatible. These collection points are accessible free of charge All products with this sign
- with your phone model. TCT Mobile Limited and its affiliates disclaim any liability must be brought to these collection points.
- for damage caused by the use of other chargers or batteries Your phone should not be disposed of in a municipal waste. Please check local Items of equipment with this symbol are not be thrown into ordinary bins if your
- regulations for disposal of electronic products. Remember to make back-up copies or keep a written record of all important are to be taken to collection points for them to be recycled
