

# Nuance® eCopy® ShareScan® Elements

Secure, Cost-Effective  
Document Scanning and OCR  
for the Entire Enterprise

**you can**

eCopy ShareScan Elements is the most cost effective way to deploy commonly used scanning and OCR functionality across a fleet of MFPs.

Secure scan-to-mail, scan-to-PC desktop, scan-to-file, and conversion to searchable and ultra-compressed PDF. Built on a highly scalable, open, modular, device-independent, client-server platform, ShareScan Elements delivers enterprise-grade performance and high ROI.

A simple interface enables users to quickly scan and send documents to their destination – right from the MFP.

Connect your MFP to your organization's e-mail for easy to use, secure distribution of paper-based information.

Getting the most out of your MFP investment means more than just making photocopies. It also means providing all users with easy access to the productivity boosting benefits of a scanning and OCR solution that puts the contents of paper into the applications that they rely on everyday.

Nuance eCopy ShareScan Elements simplifies the challenge of meeting this requirement by consolidating the management of integrated MFP scanning and OCR workflows across your fleet. Now, everyone can scan documents and e-mail them and send them to their personal computers or network folders – right from the panel of the MFP.

They can also create searchable and ultra-compressed PDFs from those paper documents – all at the touch of a button. eCopy ShareScan Elements can also be expanded with numerous connectors and extenders to expand and customise document processing capabilities.

## FEATURES AND BENEFITS:

### The Best MFP Scanning and OCR Experience for Users

Our best-in-class UI eliminates training, ensures rapid adoption, delivering the fastest ROI.

### Superior Usability

From single sign-on and one-button OCR and routing, to scrolling/fly-out menus and fast access to personal favorites, ShareScan Elements is the easy answer for enterprise – wide scanning and document conversion.

### Strong Security and Seamless Active Directory Integration

ShareScan Elements integrates directly with Active Directory and your system user security credentials. It also can encrypt documents for greater security over public networks.

### Highest Accuracy OCR and Conversion Combined with Ultra- Lightweight Compression

Minimize disk space, searching for information by utilizing highly accurate OCR to convert scanned images into searchable PDF format and sharp image enhancement.

## Nuance® eCopy® ShareScan® Elements

### Take advantage of extended capabilities and connectivity to leading applications and document management systems

- Microsoft® Exchange and IBM Lotus Notes
- Microsoft Active Directory
- Windows, Novell Network, FTP and WebDAV folders
- PC Desktops and User Home Directories
- Open Text Fax Server, RightFax Edition<sup>1</sup>
- Open Text Document Management<sup>1</sup>
- Open Text Document Management, eDOCS Edition<sup>1</sup>
- EMC® Documentum® Content Server™<sup>1</sup>
- Autonomy iManage WorkSite (formerly Interwoven)<sup>1</sup>
- Microsoft SharePoint®<sup>1</sup>
- eCopy Quick Connect™<sup>1</sup>
- eCopy Bates Numbering Extender™<sup>1</sup>
- eCopy Cost Recovery Extender™<sup>1</sup>
- eCopy Highlight and Redact Extender™<sup>1</sup>
- eCopy Forms Processing Extender™<sup>1</sup>
- eCopy Barcode Recognition Extender™<sup>1</sup>
- eCopy Image Enhancement Extender™<sup>1</sup>

<sup>1</sup> Optional for additional licensing fee

### Device Compatibility

ShareScan Elements is available on select MFPs and scanners and includes server software for document processing and integration to back-end networks and systems. For the latest supported platforms for ShareScan Elements, please visit: <http://www.nuance.com/support/ecopy/supported-devices/index.htm>

### System Requirements

#### Minimum Software Requirements<sup>2</sup>

- Microsoft Windows XP Professional
- Microsoft Windows 2003 Server
- Microsoft Windows Vista Business Edition
- Microsoft Windows Vista Enterprise Edition
- Microsoft Windows 2008
- Microsoft Windows 7<sup>3</sup>

<sup>2</sup> System requirements for eCopy ShareScan Elements for embedded or integrated devices may vary, depending upon configuration.

<sup>3</sup> Embedded devices only

eCopy Connectors and Extenders System requirements differ for each Connector and Extender.

### FEATURES AND BENEFITS (cont.)

#### Industry-Leading Mail and File System Integration

Dynamic integration with address books, directories and file systems reduces help desk enquiries and routine manual synchronization required by lesser solutions.

**Greater IT Efficiency** – With device and user-group profiles management, ShareScan Elements accelerates deployment and simplifies moves, additions, and changes.

**360° Enterprise Monitoring and Reporting** – Generate reports that track usage, demonstrate adoption, and quantify your ROI. Capture a complete audit trail with a copy of every document scanned. You can even create custom audit-trail reports by date, device, user, connector and job status.
