

## XT70 - Electric hedge cutter

 Clic on

### Characteristics

Power : 600 W

Blade length : 70 cm

Spacing of blades : 27 mm

### Architecture

Weight : 4,8 kg

### Performances

Transmission : 1 stage

Number of cuts : 2400 min-1

Blade stopping time : instant ( $\leq 0.03$  second)

High performances even when cutting thick, old hedges.

### Equipment

Protective storage sheath.

Rail with aluminium finish.

Anti-impact end stop.

2 starter controls

Patented armrest.

Handle that turns 180°

4 integrated oilers (principle patented by Outils Wolf).

250ml lubricant spray included.

Transparent protective shield.

### Product advantages

Careful ergonomics and very well balanced device.

Thanks to the depositing of oil on the blades, friction on them is limited and the power of the hedge cutter increased.

Maximum safety (two-hand control, mechanical blade stoppage).

### Positioning

A particularly easy to handle hedge cutter, very effective for big jobs.

Use : General public

New : yes

### Accessories

Special overmoulded cable (25m) VV25

Special overmoulded cable (50m) VV50

### Guarantee

2 years private use, 1 year professional use.
